EDUCATION

Hong Kong Baptist University

- Major: Artificial Intelligence
- cGPA: 3.01/4
- Core courses: Artificial Intelligence and Machine Learning, Software Engineering, Data Communications and Networking

WORKING EXPERIENCE

Internship in EngineAI

May - Aug 2025

ENGINEAI Robotics Technology Co., Ltd.

- Learning robot embedded software development based on the Ubuntu system, conducting factory testing of products and developing with the Intel RealSense D435i.
- Participate in world-class artificial intelligence exhibitions such as Macau EXPO and WRC, showcasing company products while conducting market research and sales activities.

Student Helper for Computer Science

Oct - Dec 2024

Hong Kong Baptist University

- Facilitated weekly Python programming labs under professor supervision, providing hands-on coding guidance to 30+ undergraduate students.

PROJECT

Computer Science

Oct 2024 - Dec 2025

AI and Machine Learning in Materials Science

- Developed an autonomous model for identifying and tracking players and the ball in soccer footage.
- Online Multiplayer Drawing and Chat Platform Program / Full-Stack Design for Library Website
- Completion of three games: Labyrinth, Tetris and Modern Art and design an own computer game.

Software Engineering

Nov - Dec 2025

Internship Management System Documentation

- Proposal for Enhancements and Testing Plan for the Internship System of the Department of Computer Science at Hong Kong Baptist University Total: 105 pages, 13,377 words.

EXTRACURRICULAR ACTIVITY

ROBOCON 2025, HKBU

Dec 2024 - Jan 2025

Mechanical Design and Programming Engineer

- Prepare for the 2025 Robocon robotics competition as the mechanical designer on the HKBU team.
- assist with site identification and programming of the AI autonomous task modules.

Hong Kong Baptist University Chinese Students and Scholars Association

Apr 2024 - Apr 2025
